

How to: Connect the TDS HD Receiver to an HDTV and Home Theater Receiver

- 1 **Connect the coax cable** from the wall to the CABLE IN port on the TDS receiver.
- 2 **Connect the Y, Pb, Pr cable** (green, blue, and red plugs) from the Y, Pb, Pr IN ports on the TDS receiver to the Y, Pb, Pr OUT ports on the HDTV.
- 3 **Connect the audio cable** (red and white plugs) from the AUDIO L and R OUT ports on the TDS receiver to the AUDIO L and R IN ports on the HDTV.
- 4 Select either of the following connections:
 - a. **Connect the OPTICAL SPDIF cable** (blue plug) from the OPTICAL SPDIF port on the Baja receiver to the OPTICAL SPDIF port on the home theater receiver.
 - b. **Connect the SPDIF cable** (orange plug) from the SPDIF port on the TDS receiver to the DIGITAL INPUT COAX port on the home theater receiver.
- 5 **Plug in the power cords** to the power outlets.

All steps complete.
