NAVIGATING TDS TV+

Settings Menu

Navigation Bar

SmartBar

Your TDS TV+ experience begins with the Home Screen. This screen includes live video playing in the background, the middle Navigation Bar, and lower SmartBar (program recommendations).

NAVIGATION BAR

The Navigation Bar provides multiple options and is the central hub of your TDS TV+ experience. Scroll left or right and press the OK button to select an option.

WATCH TV: To watch live TV shows, go directly into the live TV channel playing in the background

MY SHOWS: Access a complete list of your TV recordings, On Demand shows you've saved, or saved shows from streaming apps like Netflix

WHAT TO WATCH: Suggests various, popular categories of programs to watch

GUIDE: Displays the channels included in your lineup

APPS & GAMES: Find and download your favorite apps

ON DEMAND: Explore our library of favorites, classics, new releases, and more

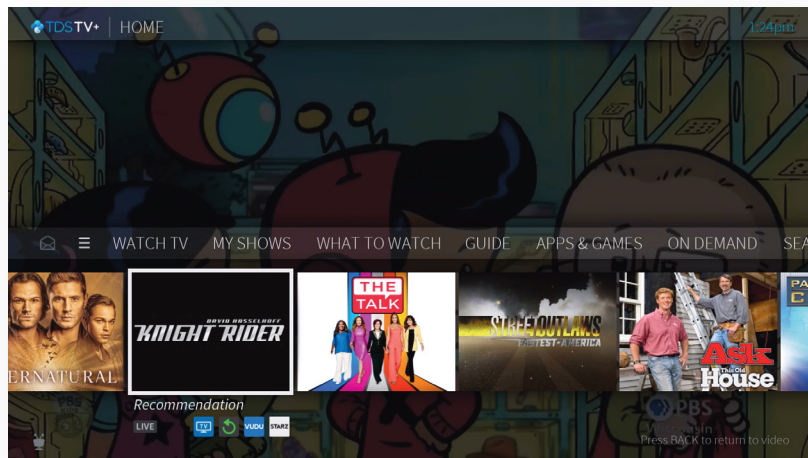

SEARCH: Look for content included in your lineup, On Demand, and streaming apps

MENU:  Press LEFT past Watch TV to access. Here you can customize settings such as Parental Controls, Favorite Channels, and other User Preferences.

SMARTBAR

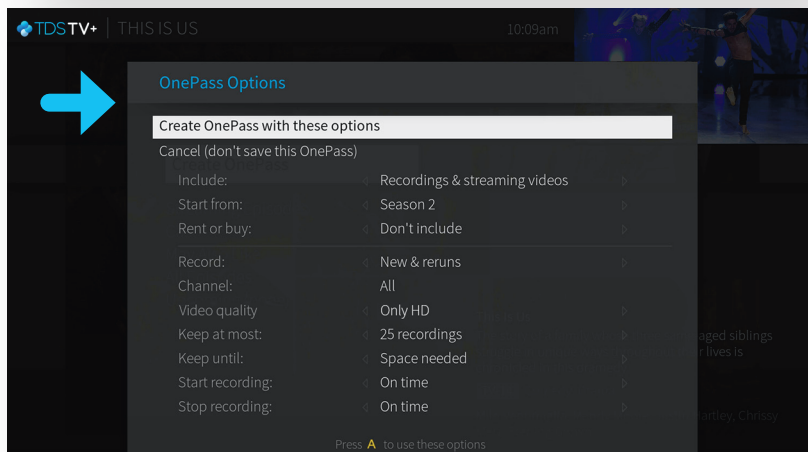

The SmartBar learns and recommends shows for you based what you usually watch at a particular time and/or day.

TIP:  The green "Start Over" icon appears next to certain shows listed in your guide. It means you can start the program over from the beginning. Press and hold the OK button to enable Start Over.

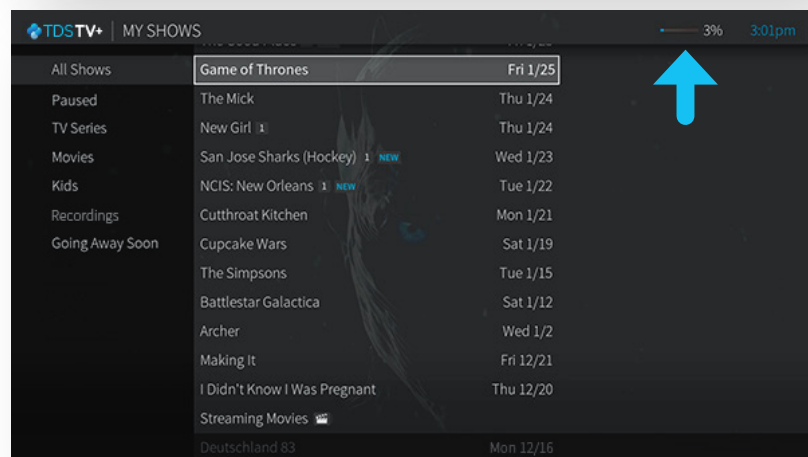

RECORDING SHOWS & MOVIES

- When watching TV or searching for upcoming airings in the Guide, press the "i" info button for the fastest way to record just this episode or movie or set up a OnePass for series recordings.
- Set up a series to record in OnePass with a variety of options to fit your recording preferences. See your User Guide for more information about recordings and OnePass.

DVR STORAGE

- OnePass™ helps you manage your recordings so you never miss an episode or overtime of the game.
- To access recordings, select My Shows from the Navigation Bar.
- Record up to 10 shows simultaneously.
- Total DVR storage space used is indicated by a percentage displayed at the top bar of My Shows.

TDS TV+ ON YOUR DEVICES

- TDS TV+ is available in the Apple and Google app stores. The app can also be downloaded on to AppleTV, Amazon Fire (TV and Cube) and Android TV.
- For TV away from home, go to content provider websites or apps and log in using your TDS account.

TROUBLESHOOTING

- For the best connection, use an ethernet cord to connect your TDS TV+ equipment to a modem.
- Location of your Wi-Fi router and Wi-Fi signal strength may impact video quality.
- To reboot the TDS TV+ receiver, hold down its power button for 6-10 seconds or unplug the receiver and plug back in.
